汕头华尔怡医疗器械有限公司

SHANTOU WEALY MEDICAL INSTRUMENT CO.,LTD.

WEALY Brief

企业简介

汕头华尔怡医疗器械有限公司，系中外合资企业。通过国家食品药品监督管理局批准生产的医疗器械专业厂家，也是汕头唯一一家专业生产一次性使用无菌注射器和输液器等无菌产品的企业。找公司是广东省高新技术企业，汕头民营科技企业和中国外商投资企业会员单位。经过长期发展，目前企业占地面积23500多平方米，现有生产厂房32000平方米，其中十万级洁净生产车间11000平方米，拥有先进的生产、检测设备和仪器，设备齐全。园林式厂区，环境优美。

公司目前生产的产品主要有：一次性使用无菌注射器、安全注射器、输液器、输液针、注射针及不锈钢等系列产品。公司的建设，完全按GMP要求建造洁净厂房和一条龙生产线，配套生化、物理、及全性能实验室，并配置了大型符合CE标准的环氧乙烷灭菌柜，确保了产品的灭菌安全。灭菌性能符合欧洲要求，并通过ISO9001和ISO13485质量体系认证，以及欧盟CE认证，美国FDA注册认证。公司自主研发的产品主要出口到欧洲和美国等国家。公司成为集科研、开发、生产、销售、服务为一体的高新技术企业。

公司始终执行“科学管理、以人为本、质量第一、顾客至上”的质量方针，坚持“人才是根本，创新是灵魂，质量是生命，品牌是资本”的企业理念，遵循“规模化、系列化”的发展思路，与时俱进，开拓创新，并以“规范、严谨、专注、创新”为方针致力于建设现代化医疗器械生产基地，为把公司建设成国内领先、国际一流的高科技企业而努力奋斗！并竭诚欢迎中外客户前来洽谈业务，精诚合作，共同发展。

Shantou Wealy Medical Instrument Co., Ltd. is a Chinese-foreign joint enterprise which is approved by the State Food and Drug Administration as a professional manufacturer for medical instruments. We are also the exclusive manufacturer for disposable syringe and infusion set and such as the sterile medical devices in Shantou. Shantou Wealy is the Guangdong High-Tech enterprise, the Shantou Private Science and Technology Enterprise and the member of China Association of Enterprises with Foreign Investment. After a long-term development, now we occupy 23,500 square meters land area and 32,000 square meters production workshop, including 11,000 square meters clean room with 100,000 classes. Wealy is fully equipped of the production and testing equipments. It is a garden-style factory with beautiful environment.

At present, our company mainly produces disposable syringe, safety syringe, disposable infusion set, scalp vein set, hypodermic needle and medical stainless steel instruments. According to the standard of GMP, our company has established the cleanliness workshop and integration production lines, mated with biochemical and physical laboratories with full functions. And allocating the large epoxy ethane cabinet complying with CE standard, ensure the sterilization safety of products. The sterilization performance meets the requirement of EN 550, and we have got the ISO9001 and ISO 13485 quality system certificate, CE certificate and also registered in FDA. Our products are exported to the Europe, America and other countries. Shantou Wealy is a high-tech company with scientific research, development, production, sales and service.

Our company has always been implementing the quality policy of "Scientific Management, People-oriented, Quality First, and Customer First" all along and insisting upon the philosophy of "Talent is the root, Innovation is the soul, Quality is the life, and Brand is the capital". Basing on the development idea of "Economy of Scale, Serialization Products", advancing with the times, blaze new trails. And with the policy of "Formativeness, Rigor, Concentration, Innovation", we devote ourselves to building a modernized production base of medical apparatus and instrument. We will strive hard to turn our company into the leading domestic and international first-class high-tech enterprise. Welcome Chinese and foreign customers to negotiate business with sincere cooperation and common development.

Business Philosophy

企业理念

或许我们不是最好，但我们追求的却是更好；或许还有不成熟的地方，但是我们却拥有行业领先的技术，拥有果断、睿智的管理者，拥有一支和谐、奋进、创新、高效的团结队伍，这就是我们华尔怡的力量源泉，这就是华尔怡团结的力量！

Maybe we are not the best, but we will seek better.
Maybe we are immature, but we have the sagacious supervisor and advanced technique in the industry.
Our team is pressing forward, concordant, innovational and with high effect. This is the headspring of WEALY's power and this is united power of WEALY!

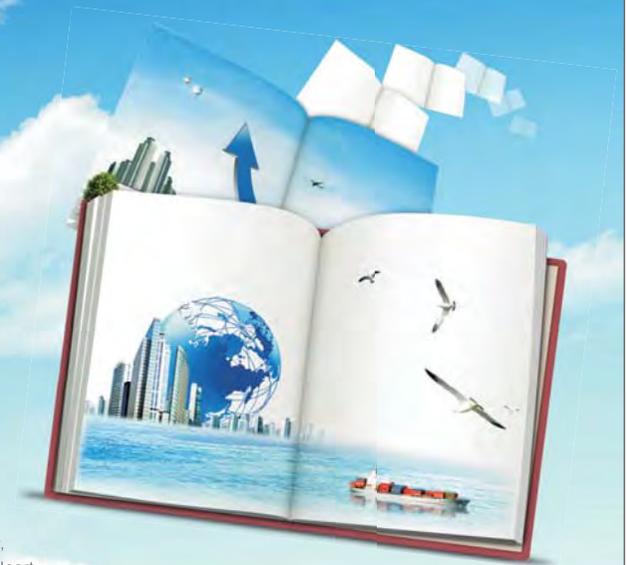

Culture

企业文化

以人为本：勤奋敬业，创新激情，
以质取胜：全心全意为客户服务，
竞争求生存：主动承担，不断探索和超越，
合作求发展：善于沟通协作，求同存异，
厚积薄发，持续改进：积极进取，创造美好生活。

People-oriented: Diligence, Innovation and Ardor,
Get Victory with Quality: Service with All One's Heart,
Seek Existing in Competition: Voluntary Bear, Continuously Search and Outdo Others,
Developing in Cooperation: Communication and Collaboration, Seek Common Ground while Reserving Differences,
Steadily Accumulate, Durative Improvement: Hard Work, Motivation, Creating a Better Life.

Quality Policy

质量方针

“客户第一”是我们的服务宗旨，
“客户满意”是我们的目标。
我们100%关注我们的客户，
我们的服务质量以客户的标准来衡量，
每天为获得和增强客户的信心而努力工作。

“Customer is the first” is our service tenet.
“Customer's satisfaction” is our target.
We will make attention to our customer all the time.
Our quality of service is scaled by customer's criterion.
We will work hard in order to get and tone up the customer's confidence.

SAFETY SYRINGE

一次性使用安全注射器

Disposable Automatically Retractable Safety Syringe

医院临床中的前一线护士每天需为患者完成大量的药液注射、取血等工作，为了杜绝血源性疾病和艾滋疾病在病人或人群中的传播，以及避免在收集处理过程中因针头外露刺伤医务人员或回收人员而引发的病原性交叉感染和对社会造成的危害，华尔怡研发了针头自动回缩式安全注射器。

As the clinical staff have to handle a lot of operations such as medication injection and blood sampling for patients every day, in order to put an end to the communication of haematogenous contagious diseases and AIDS among patients or health people, it is necessary to prevent exposure of used needles during their collection and disposal which may cause pathological cross-infection. Therefore, Wealy research and design the disposable automatically retractable safety syringe.

Code No.SS111

Disposable Automatically Retractable SAFETY SYRINGE

Features & Benefits

- Single Use with One-handed Operation Operate like a standard syringe; healthcare staff requires no additional steps to finish the injection.
- Automatic Needle Retraction
- The retractor member and needle automatically retracted after medication is fully discharged, and the needle is firmly locked inside the plunger rod.
- Designed for Comfort
- Needle Gauge Size Indicator
- The colour of the needle seat is consistent with the ISO standard, which is easily to identify the needle size according to the colour of the needle seat.
- Sharp Needle
- Achieve world class needle sharpness through the use of high grade steel tubing combined with the application of the latest grinding technology to produce a five bevel cut on the needle tip.

Specification

Syringe Needle	Safety Syringe Capacity					
	Insulin	1ml	3ml	5ml	10ml	20ml
16G						16G
18G					18G	18G
21G				21G	21G	
22G			22G	22G	22G	
23G			23G	23G		
25G			25G	25G		
26G			26G			
29G	29G	29G				
30G	30G	30G				

Instructions for Use:

Clinicians must be familiar with and trained in the administration of intramuscular injections first. Accordingly, the following steps support the proper use.

1. Peel to open the small package, take off the protecting cap of needle.
2. Insert the needle into the bottle of medication, draw medicine into the barrel.
3. Expel all air bubbles in the barrel, and then do the injection.
4. Depress plunger rod until medication or fluid is fully discharged and the needle automatically retracted.

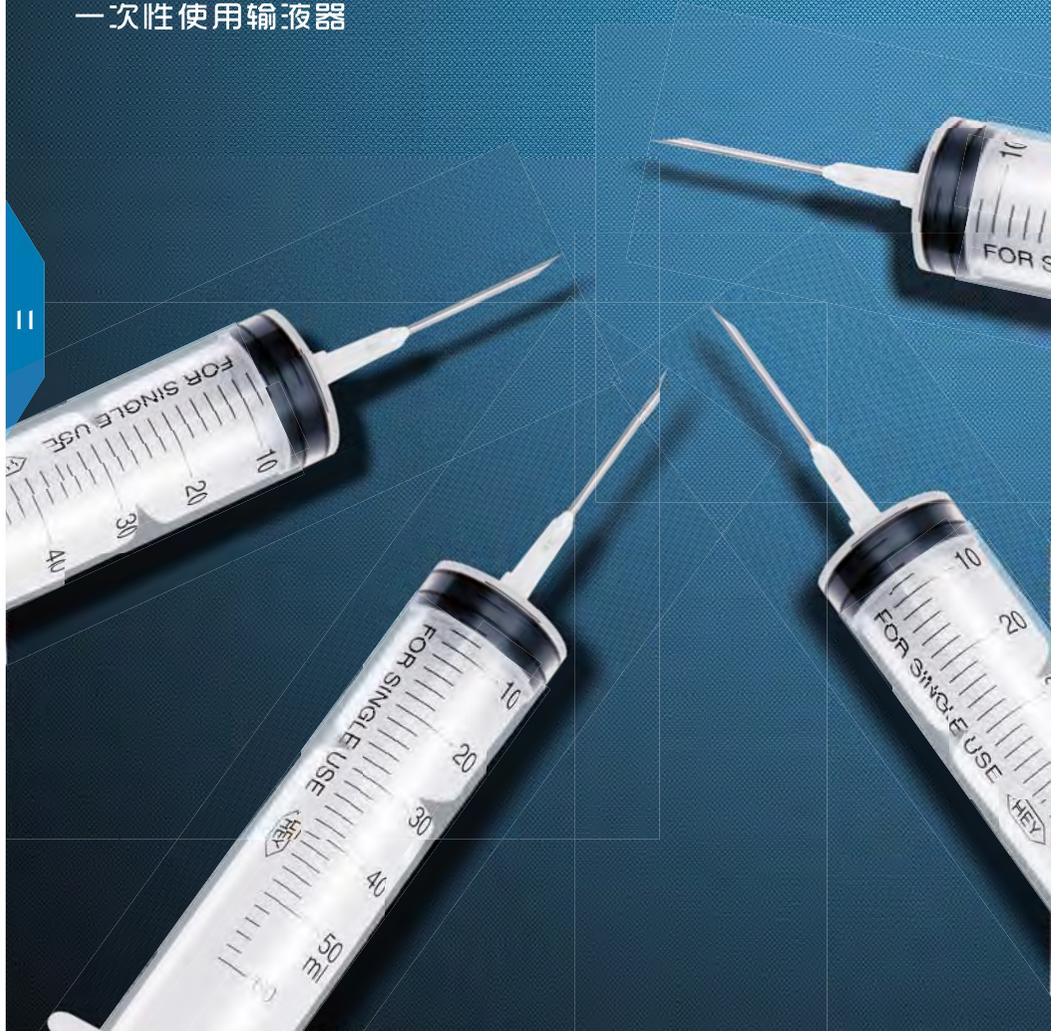

Certificates

Disposable Syringe Disposable Infusion Set

一次性使用无菌注射器
一次性使用输液器

11

Disposable Syringe

一次性使用无菌注射器

Code No. S101A

- Luer slip, Luer-lock
- Spec: 1ml, 2ml, 2.5ml, 3ml, 5ml, 10ml, 20ml, 30ml, 50ml, 60ml,
- With Needle Mounted or By-packed, or Without Needle
- Latex/Latex-free Piston
- Lubricant-Medical Grade Silicon
- PE/Blister Individual Package
- The product is EO sterile and has no pyrogen or hemolysis reaction
- The transparency of the barrel and clarity of graduation is easy to visualize the proper dosage of medication.

12

Code No. S101B
 Disposable Insulin Syringe
 一次性使用胰岛素注射器

- Spec: 0.5ml, 1ml
- Latex/Latex-free Piston
- Ultra Fine Cannula for Maximum Patient Comfort
- Attached Needle, No Dead Space, No Waste
- I.U. and CC Calibration
- EO-Sterilized
- PE/Blister Individual Package

Code No. S101C
 Disposable Tuberculin Syringe
 一次性使用结核菌素注射器

- Spec: 1ml
- Latex/Latex-free Piston
- Ultra Fine Cannula for Maximum Patient Comfort
- Attached Needle, No Dead Space, No Waste
- I.U. and CC Calibration
- EO-Sterilized
- PE/Blister Individual Package

Code No. S102
 Control Syringe
 专用注射器

- Spec: 10ml
- Luer-lock
- Packing-Available as Customers' Requirement
- Transparent Plastic Barrel with Indelible Black Scales

Code No. S103
 Irrigation Syringe
 冲洗器

- Flat Type (Catheter Tip), Ring Type and Bulb Type
- Protecting Cap Included
- Top-quality Polypropylene
- PE/Blister Individual Package
- Easy-to-use Syringe for Enteral Feeding
- Piston syringe has smooth-motion plunger and leak-proof seal.
- Available in bulb style or piston style with thumb-control ring and flat ring.

Code No. S105A
 Disposable Vaginal Dilator
 一次性使用阴道扩张器

- Side-screw Type: Large
- High Quality PS
- PE Individual Package
- For Examination Use

Code No. S105B
 Disposable Vaginal Dilator
 一次性使用阴道扩张器

- Push Type
- Push Type: Small, Medium, Large
- High Quality PS
- PE Individual Package
- For Examination Use

1

Infusion Set with Burette
 小儿吊瓶

- Spec: 100ml, 150ml, (Hard Type)
- Vented or ABS (White or Milk-white)
- TOP Flow Regulator—PE
- 100ml or 150ml Graduated Burette, with Float Valve inside
- Drip Chamber—PVC, Transparent, with Medication Filter
- 60 drops = 1±0.1ml
- Tubing—PVC, Transparent
- Bottom Roller Regulator
- Y-site Connector—ABS, Transparent, with Yellow Latex Cap Embed in One End.
- Screw Adapter—ABS, Transparent
- Needle or Screw Cap—Choice
- PE/Blister Individual Package

Code No. S106

2

Disposable Infusion Set
 一次性使用无菌输液器
 B Type-2

- For Gravity Use
- For Infusion Bags & Bottles
- 20 Drops = 1±0.1ml
- Flexible Drip Chamber, With or Without Medication Filter
- Vented Spike, Protecting Cap of Spike Included
- Slip Adapter or Needle Roller Regulator
- Yellow Latex/Latex-free Tube Injection Bulb
- Tubing—PVC, Transparent, Length—150cm or as required
- EO-Sterilized, Non-toxic, Pyrogen-free
- PE/Blister Individual Package

Code No. S104B-2

3

Disposable Infusion Set
 一次性使用无菌输液器
 B Type-3

- For Gravity Use
- For Infusion Bags & Bottles
- 20 Drops = 1±0.1ml
- Flexible Drip Chamber, With or Without Medication Filter
- Vented Spike, Protecting Cap of Spike Included
- Screw Adapter or Needle Roller Regulator
- Yellow Latex/Latex-free Tube Injection Bulb
- Tubing—PVC, Transparent, Length—150cm or as required
- EO-Sterilized, Non-toxic, Pyrogen-free
- PE/Blister Individual Package

Code No. S104B-3

规格	色 标	常用针管长度 LENGTH
